Ordinance and Syllabus for B.Com. under NEP (2022 – 23 onwards)

Bachelor of Commerce (B.Com.)

Four-Year (Eight-Semester) Full-Time Programme

The undergraduate programme with research/ honours (B.Com.) shall be of four-years duration, with multiple entry and exit points and re-entry options. Each academic year is divided into two semesters. The four years interdisciplinary/ multidisciplinary Bachelor's Programme (B.Com.) is the preferred option as it allows the opportunity to experience the full range of holistic and multidisciplinary education with a focus on major and minor subjects as per the student's preference. The programme may also lead to a degree with research, if the student completes a rigorous research project/ dissertation in the major area(s) of study during eight semesters. Thus the B.Com. Programme shall extend over four academic years (eight semesters) with multiple entry and exit options.

An academic year shall consist of two semesters:

Odd Semester (I, III, V & VII Semesters): July to December

Even Semester (II, IV, VI & VIII Semesters): January to June

The academic calendar for each semester shall be notified by the University well before the commencement of the semester.

Eligibility and Credit Requirements:

- **Self and Social Development (SSD) Course Work:** This Self and Social Development (SSD) course work of 2 credits will be compulsory for all students of UG Program. This course work is compulsorily to be completed in any one semester, i.e., within 1st to 6th semesters if the student exits after three years of B.Com. Program and within 1st to 8th semesters if the student exits after completing B.Com. Hons./ Hons. with Research Program. This course work of 2 credits will be in addition to 120 credits or 160 credits, as the case may be. The University will offer two courses under SSD that are **(1) Community Connect & Service (2) Extracurricular activities**. The students will have a choice to complete **any one** of the following two course works.

(1) Community Connect & Service: This course is aimed to connect students with community with the objective of understanding their issues and delivering their valuable inputs for the welfare of society. Student will have to offer a minimum of 30 hours of service for completing the course. This mandatory service of 30 hours may be completed through any social activity organised under the banner of “Swaach Bharat”, “Ek Bharat Shrestha Bharat”, “NSS”, “NCC”, “Namami Gange” or activities organised by the Campus or Departments. Student will have to produce a certificate in this regard from the organizers of the event(s).

OR

(2) Extracurricular Activities: This course work requires student’s participation in University Demarcated Activity, such as participation/ representation of institution in Intercollegiate Activity/ State Level Activity/ National Level Activities. A committee set up by the University will verify the student’s participation in activities for award of credits for the course work.

- **Remote/blended learning modes:** Options will be available for students to earn credit by completing quality-assured remote learning modes, including online programmes offered on the Study Webs of Active Learning for Young Aspiring Minds (SWAYAM: www.swayam.gov.in) or other online educational platform approved by the competent body

from time to time. Students may opt to earn credits from such courses required for the award of a certificate/Diploma/Degree.

Semester Pattern & Credit System:

The workload relating to a course is measured in terms of credit hours. A credit is a unit by which the course work is measured. It determines the number of hours of instruction required per week for the duration of a semester (15-16 weeks). One credit is equivalent to 15 hours of teaching (lecture or tutorial) or 30 hours of practical or field work or community engagement and service per semester. Credit is awarded to a learner in recognition of the verified achievement of the defined learning outcomes. One credit involves 30 hours of out-of-class activities, such as preparation for classes/lessons, completing assignments which form a part of the course work, and independent reading and study per semester and 15 hours of out-of-class activities per semester for practicum.

There shall be two sessional tests and one end-semester examination. The sessional tests shall carry 30% of the total marks of the course. The marks of sessional tests shall be taken into account for computation of Grades. There shall be written end-semester examination which shall be of two hours duration carrying 70% of total marks assigned for the course. Evaluation shall be done on a continuous basis, three times during each semester.

Sessional tests may employ one or more assessment tools, such as objective tests, assignments, paper presentation, laboratory work, field work, etc. suitable to the course. This requires an element of openness. Students shall compulsorily attend two sessional tests. The sessional test as a part of the continuous internal assessment shall be conducted and evaluated by the teacher offering the course.

Unit 5: Analysis of Time Series	15	10	0	0

Unit 1: Descriptive Statistics:

Methods of data collection; Methods of Classification and Tabulation; Measures of Central Tendency: Concept and properties of averages including Arithmetic mean, Median and Mode, Geometrical and Harmonic Mean; Partition Values; Graphical Presentation of Data and its Interpretation; Location of Median, Quartiles and Mode Graphically.

Unit 2: Measures of Dispersion and Skewness:

An overview of Range, Quartile Deviation and Mean Deviation; Standard deviation; Variance and Coefficient of variation; Moments: Computation and significance; Skewness; Kurtosis.

Unit 3: Correlation Analysis and Regression Analysis:

Simple Correlation; Scatter Diagram; Methods of Computing Correlation: Karl Pearson and Rank Correlation; Standard Error and Probable Error.

Regression Analysis: Principle of least squares and regression lines; Regression equations and estimation; Properties of regression coefficients; Relationship between Correlation and Regression coefficients; Standard Error of Estimate.

Unit 4: Index Number:

Fixed Base and Chain Base; Base Shifting; Splicing; Weighted Index numbers; Consumer Price Index number; Fisher's Index number; Tests of Reversibility; BSE SENSEX; and NSE NIFTY.

Unit 5: Analysis of Time Series:

Time Series Data: Components of time series, Additive and Multiplicative models; Trend analysis: Fitting of trend using principle of least squares – linear and second-degree parabola; Shifting of Origin and Conversion of annual linear trend equation to quarterly/monthly basis and vice-versa.
